Get a **DEMO** of the CECL tool that offers **BIG** advantages.

- **Do-it-yourself estimate** – Consultants not needed
- **Instant peer and historical data** – Powers your Q-factors and instantly showing your historical data and customized peer data – critical to your CECL analysis
- **Huge help for community banks** – Enables you to perform a very informed and defensible CECL analysis that’s completely sufficient for most community banks
- **No analysis paralysis** – Replaces needlessly complex calculation methods and software services
- **Data handling done for you** – Let us aggregate the data and calculate your Weighted Average Remaining Maturity for your portfolio (if desired)
- **Graphical results** – New loan graph feature visualizes your expected reserve versus your past experience

Save yourself immeasurable work and frustration! Take a tip from the regulators:

“... for smaller, less complex community banks, complex modeling techniques are not required, and simple practical methods should work.”
